EXPERIENCE

E-Transact UK, London UK. — Senior *Mobile Engineer*(Remote).

July 2023 - PRESENT

Leading the development of Transact UK's flagship mobile applications for secure financial transactions and business account management across Europe.

Key Achievements:

- Built and launched the **XCEL Mobile App** (Android & iOS), enabling users to conduct international financial transactions securely.
- Developed and deployed **XCEL Business**, a mobile app tailored for business owners to manage finances, monitor transactions, and streamline operations.
- Contributed to processing over **£41 million** in transaction value across **3 million+** transactions.
- Achieved **20,000+ active users** and increased user retention by **73%** through enhanced UX and unique service features.
- Mentored a small team of junior engineers, fostering skills in mobile development and best practices.

The GIG Group, Lagos — Senior *Mobile Engineer*.

July 2021 - June 2025

Mobile engineer for (Stellas Digital Bank) which is one of the subsidiaries of the GIG Group, which is a Nigerian holding company with diverse subsidiaries in transportation, logistics, automobile, cryptocurrency, and Fintech.

Key Achievements:

- Developed and launched the **Stellas Digital Bank** for **both Android and iOS** platforms.
- Scaled the platform to **30,000+ users**, increasing customer retention by **33%**.
- Supervised and mentored a junior developer for 6 months, improving team productivity and code quality.

Intelligent Innovations, Lagos — *Mobile Engineer*.

February 2021 - December 2021

Intelligent innovations is a reputable software development company known for designing and developing technology solutions that help enterprises automate their businesses with interest in fintech, edtech and technical talent outsourcing.

Key Achievements:

- Successfully led the end-to-end development and deployment of two mobile applications: **ESPlan** (loan management) and **CoreBank** (mobile banking) for both Android and iOS.
- Attracted over **10,000 new users** to the platform following launch.
- Enabled the processing of more than **300,000 transactions**, totaling over **₦3 billion** (approx. **£3.1 million**).
- **ESPlan** facilitated disbursement of loans worth over **₦170 million** (approx. **£181,000**) to internal staff.
- Enhanced loan repayment efficiency — reducing default and repayment issues by **90%** and increasing overall repayment rate by **50%**.
- Received **positive user feedback** for app usability, performance, and reliability.

NaHere Limited, Lagos — Mobile Engineer

April 2020 - May 2021

Focused on ERP systems development, including HRMS, CRM, POS, and warehouse modules.

Key Achievements:

- Built the **NaHere Townhall** mobile app, which achieved **50,000+ downloads**.
- Collaborated closely with backend engineers and UI/UX designers for a seamless user experience.

Relevant Systems, USA — Mobile Engineering Intern

February 2020 - May 2020

Supported development teams by converting UI designs into interactive features and collaborating on cross-functional teams.
